

Making Gender & Natural Resource Management Work

Christine Verheijden
International Consultant Diversity2Change

Gender equality & indigenous people

► Intersectionality

Gender inequality is not experienced the same way by all women (or men), nor expressed the same way in all context.

Gender inequality cannot be seen as separate from other forms of discrimination and disadvantage that women face

Gender equality & indigenous people

Bolivia : CAF – Development Bank of Latin America + Ministry of Water / Vice-Min. of Water & Sanitation

➤ Agriculture & irrigation – MI RIEGO

Processes for making the money work:

- you need to have information
- every body is an important source
- men and women should participate & should be heard

➤ Water & sanitation sector – MI AGUA

Green Climate Fund - GCF

- HOW?

Gender equality in disaster risk and climate change

E.g.,

- Engendering policies
- Engender project
- Gender markers:
 - ✓ GEN3 (Gender equality as a principle objective);
 - ✓ GEN2 (Gender equality as a significant objective);
 - ✓ GEN1 (Limited contribution to gender equality);
 - ✓ GEN0 (No contribution to gender quality)

EnGenDER (Enabling Gender-Responsive Disaster Recovery, Climate and Environmental Resilience) Project

Date: Wednesday, August 4, 2021

UN Women Multi-Country Office (MCO) Caribbean is supporting project partner countries to incorporate Gender Mainstreaming in National Adaptation Plans (NAPs) to reduce the likelihood of gender inequality in disaster risk and climate change.

To this end, the UN Women MCO is seeking to contract an Institute to provide virtual Gender-Responsive Disaster Risk Resilience and Climate Change Adaptation Training for at least 50 Senior Technical Officers in selected priority areas in nine Caribbean Countries in the period August to December 2021.

Submission deadline: 11:59 PM EST on 10th August 2021
